“The Golden Touch”

Beautifully delicate, a leaf finish completes a space by creating a one-of-a-kind hand crafted piece of sculptured artwork. Leaf is metal that has been pressed, rolled or hammered into extremely thin and fragile sheets with a patina. Because of its extreme softness, leaf is considered a very temperamental medium. Swaim is one of few furniture makers that still practices this ancient technique.

Leaf is a delicate finish and care should be taken when rearranging or moving. Optimally, gloves should be worn when handling. The surface may be lightly dusted with a dry soft cloth or feather duster. No cleaning solutions should be used and the surface should not be buffed or rubbed in any way.

Add some dazzle, sparkle and shine to your artistic expressions.
